11	2	Write a brief note on 'targeting using CSS'.		
12	2	How to assign multiple classes.		
13	2	Write a note on multiple selections.		
14	2	Write a note on multi-level selection.		
15	3	Explain box model.		
16	3	List and explain all the text properties.		
17	3	List and explain all the font properties.		
18	3	List and explain all the background properties.		
19	3	Explain CSS padding.		
20	3	Explain CSS border.		
21	3	Explain CSS margin.		
22	3	How to styling the list.		
23	3	How to style the images.		
24	3	Write a note on float properties.		
25	3	Write a note on CSS positioning.		
26	3	Write a note on CSS layers.		
27	4	Write a note on CSS3.		
28	4	Explain in brief CSS3 animations.		
29	4	List and explain all the sub-properties of animation property.		
30	4	Explain keyframes.		
31	4	How to apply intermediate steps in animation.		
32	4	Write a note on CSS variables.		
33	4	Explain media queries with example.		
34	4	What is the use of wild card characters and how they are used?		
35	4	Explain with example linear gradient.		
36	4	Explain with example radial gradient.		
37	4	Write a note on pseudo classes.		
38	4	Write a note on pseudo elements.		
39	4	How to apply tooltip.		
40	5	What is bootstrap?		
41	5	How to load bootstrap?		
42	5	List and explain important globals of bootstrap.		
43	5	List all the available breakpoints along with class infix and dimensions.		
44	5	Write a note on containers.		
45	5	Explain grid system.		
46	5	What is 'gutters'?		
47	5	How to work with tables in bootstrap?		
48	5	List and explain color utility classes.		
49	5	List and explain background utility classes.		
50	5	List and explain text utility classes.		
51	5	List and explain border utility classes.		
52	5	List and explain spacing utility classes.		
53	5	List and explain float utility classes.		

54	5	List and explain shadow utility classes.		
55	5	List and explain sizing utility classes.		
56	5	List and explain vertical alignment utility classes.		
57	5	List and explain position utility classes.		
58	5	List and explain display utility classes.		
59	5	List and explain interactions utility classes.		
60	5	List and explain opacity utility classes.		
61	5	List and explain overflow utility classes.		
62	5	List and explain visibility utility classes.		
63	5	List all the components of bootstrap 5.		
64	5	Explain with example 'Vertical form'		
65	5	Explain with example 'Inline form (BS-3,4)'		
66	5	Explain with example 'Inline form (BS-5)'		
67	5	Explain with example 'Horizontal form'		
68	2-5	Practical program of all the units. (min 2 programs from each unit can be asked in the exam)
